About Our Products

The ASK team has family members on the front lines so our commitment is deep and personal. Working with a network of experienced and reliable distributors and FDA Approved and FDA Compliant manufacturers, we're working to support organizations of all sizes. **No BS.**

[PPE Resources](#)

Not another flash in the pan.

Commitment to transparency. ASK PPE is part of ASK Consulting Group LLC, a business advisory group founded more than 20 years ago to help companies grow. Early in the COVID-19 pandemic, while helping a client secure financing to acquire PPE, we experienced the type of wild-west, no-rules, free-for-all we haven't seen since marijuana was legalized. Questionable brokers, the sale of product that didn't exist and worst of all, deposits made on product that was never delivered. **In short, we saw lots of BS – business scams.**

GAMMEX® PI Glove-in-Glove™ System

S U R G I C A L G L O V E S

Synthetic, pre-donned double gloving system of two gloves in one enabling healthcare workers to double glove in one don

KEY FEATURES AND BENEFITS:

- This double glove-layering system offers pre-donned outer and inner gloves are packed in one poly-pouch and one inner-wrap to help make double gloving easier and faster, saving on half the donning time; and, with 50% less inner packaging materials used, reducing the impact on the environment
- The outer and inner gloves are aligned at the finger tips to minimize the need for adjustments upon donning
- The outer glove comes off easily and the smooth upper surface of the inner glove makes it easy to accommodate any intraoperative changes
- Both the outer and inner gloves are the same size for optimal user comfort
- Non-latex to eliminate the risk of latex Type I allergy
- Zinc 2-mercaptobenzothiazole-free (ZMBT-free), diphenylguanidine-free (DPG-free) and cetylpyridinium chloride-free (CPC-free) to minimize the risk of chemical Type IV allergies and sensitivities to these chemical accelerators

Recommended For

- Damp donning
- Easy identification of a glove breach
- Protection from Type I latex allergy in HCW's or patients
